

Lyndhurst Junior School - Year 3 Curriculum newsletter

Spring Term 1 2020

Our theme for this half term is:
'Scrumdiddlyumptious'
We are...

English

- Learning to create character and setting descriptions using a range of adjectives and similes.
- Learning to create our own Newspaper articles using the correct format.
- Continuing to learn our Year 3 spellings.

Maths

- Learning how to solve multiplication and division problems.
- Learning to solve a variety of mathematical problems involving measurement using learnt number facts.
- Learning how to compile and present data.

Science

- Learning about what makes a healthy lifestyle.
- Learning what makes a healthy diet, looking at protein, carbohydrates and fats.
- Looking at the importance of oral health and the function of our teeth.

Computing

- Using software to design packaging for our homemade scones.

R.E.

- Looking at good and evil and how these are portrayed in different faiths.
- Learning about the Jewish faith.

Geography

- Learning to understand the journey our food takes.
- Using maps and atlases to identify continents and countries.

Art/ D.T.

- Learning to prepare and make our own foods.
- Designing and making our own food packaging.

P.E.

- Learning how to create a contemporary dance through applying learnt skills.
- Learning to adapt movements into a sequence, both independently and with a partner.

Thank you for your continued support. Please keep reading and working on the spellings the children bring home!
