Lyndhurst Junior School

A King's Group Academy

May 2018

Dear Parents / Carers,

Year 5 will be finding out all about space during the second half of the summer term. To engage the children in this fascinating topic, as well as other areas of Science, we will be inviting Winchester Science Museum to our school to hold two workshops with the children throughout the day. During the day, the children will take part in a workshop called 'Destination Space Station' where they will learn about Tim Peake and his recent visit to the space station, as well as having the opportunity to experiment with water absorption and how this might be different in space. They will also be developing their forces knowledge by investigating all aspects of 'Fantastic Forces'. They will also be introduced to electromagnetism through exciting Van der Graaff demonstrations.

A voluntary contribution of £5.00 will be required to run these workshops. Having both of these workshops at school, rather than at the museum itself, will cost your child a fraction of the cost, with just as much experience. The Science Museum will be arriving on Wednesday 13th June.

Please fill in and return the slip below by Friday 8th June, with your voluntary contribution enclosed.

Kind regards,

L. Shackelford
Year Leader

Name: _____ Class: _____

I enclose a voluntary contribution of £5.00 for the Science day
